

Health Survey 2004

- Please fill out information on each Kerry Blue Terrier that you have owned in the last five (5) years.
- Provide information on each dog separately. Make additional copies of this form, or print more from <http://www.kerryblues.info/> by clicking on "Health."
- For each dog, enter the appropriate Disease Code for each disorder that has affected the dog during its life. Comments about the method of diagnosis and the treatment would be helpful.
- *Please report dogs that have had no health problems—it is very important that healthy dogs be included.*
- To help maintain confidentiality, do not include personal identifiers or put a return address on the mailer.
- Return the completed forms to our independent collector, Marit Marino, by **May 31, 2004**, using the pre-addressed mailer.
- Your completion of this survey is one step forward in helping future generations of Kerries avoid today's diseases. Your cooperation is important and appreciated!
